

Cultivation of Women's Tastes

It is a conceded fact that women cultivate a taste for fashionable attire to a greater extent than men—and a woman truly appreciates genuinely stylish garments. And the most uncultured taste will quickly recognize the high standard of fashion in our

New Spring Jackets

This line embraces a most comprehensive variety of light weight garments ranging from the jaunty hip length jacket to the full length overcoat. They are made in the form fitting, half fitting and loose fitting garments, and are principally trimmed with daintily stitched self straps—collarless and with mannish collars. Come in whip cords, coverts and Scotch novelties in designs that represent every clan—and a goodly number of Shepherd's checks in all sizes.
